**Day I (16-07-2018)**  
**(Morning /Inaugural Session)**

**Resource Person: Prof.(Dr.) N. N Sharma (Principal)**

**Topic: Personality Development and Communication Skill-A Change and Challenges.**

First Induction cum Orientation Programme of the newly established Govt. College Jawali Distt. Kangra was inaugurated by our founder and newly appointed principal Prof.(Dr.) N. N Sharma who delivered an energetic motivating and inspirational inaugural address to ignite the minds of first batch of our students to whom he addressed as Brand Ambassadors of the college.

In his presentation he focused on various tips of personality development like positive attitude, constructive vision, clear cut goals and competition through contribution. He motivated students to work hard with dedicated attitude. He discussed on various characteristics of effective personality i.e. way of delivery of knowledge, behavior with others, justification of your role, dress up sense and adjustment with the prevailing environment. He also shared his views on remaining competitive a major challenge for the students in the present global scenario. He inspired students for smart work and to become creative with hard work too.

He also focused on various tips to make the communication interactive, attractive and effective. He further focused on developing communication skills with human technology to win the heart of people. He also shared the techniques to develop confidence, effective listening skills, courage, patience and time management. The students were found with special energy to do something new in the days to come with the techniques they learned.

**Day I (16-07-2018)**  
**(Evening Session)**

**Resource Person: Prof. Neeraj Kumar & Prof. Sulkashan Kumar**

**Topic: RUSA – Rashtriya Uchchatar Shiksha Abhiyan-An Overview & Value and Professional Ethics.**

Prof. Neeraj Kumar Department of Political Science Govt. College Jawali Distt. Kangra threw light on RUSA System implemented by the Himachal Pradesh. In his presentation he discussed the various issues related to allocation of credits, structure of core and elective courses, calculation of SGPA/CGPA etc. He shared his views on choice based credit system incorporated under RUSA and made the students aware about the role and relevance of DSE-I and DSE-II. He also discussed the mandatory courses like Environmental Science.

He also discussed the various aspects and challenges under new system and motivated students to understand the relevance of this CBCS keeping in view their future goals. Prof. Sulakshan Kumar discussed various components on Human values and Professional Ethics required for young students to become very good human being. He focused on emotional quotient and motivated students to develop healthy professional ethics with high moral values of respect and recognition. He focused on the role and relevance of parents' teachers and society as a whole to develop the positive spirit in the materialistic world.

The Presentations were very much informative and beneficial for the new students.

**Day II (17-07-2018)**  
**(Morning Session)**

**Resource Person: Dr. Manpreet Arora**

**Topic: *Entrepreneurship Development & Young India.***

Dr. Manpreet Arora in her most energetic and motivating presentation involved the students by conducting their SWOT ANALYSIS which made the students more participative and initiative oriented. She stressed on various capacity building aspects and suggested students not to under estimate their capabilities and established transparent objective sin life. She shared the efforts, struggles and achievements of prominent entrepreneurs who started from zero and touched the sky heights. She discussed the various opportunities and threats in the competitive world and ask the students to face the challenges with courage and confidence.

In her presentation she also discussed and deliberated on various challenges for the Young India coming up by 2020. She focused on various techniques by which students can make their personality effective. She inspired the students by giving examples of top personalities of the world who have established distinguished milestones in their journey of life.

She further suggested the students to make their present beautiful by putting their 100% so as to make their future successful, purposeful and meaningful. Her presentation was very motivating, inspiring with guiding spirit for the new comers. The students were found very much enthusiastic, involved and over-joyed during the entire presentation.

**Day II (17-07-2018)**  
**(Evening Session)**

**Resource Person: Prof. Neeru Thakur**

**Topic: *Role of Youth in Nation Building.***

Prof. Neeru Thakur in her effective presentation ignited the minds of the youth of the college and shared the role and importance of youth in nation building. She said that the young generation shoulders a huge chunk of the responsibility of nation building; not the politicians or the policy makers alone. It would be more accurate to say that the youth working in tandem with the government decide the fate of a nation and its coming generations. It is, therefore, important that the voices of the youth get the right platform. It is necessary that the youth gets to exercise their freedom of speech, their opinion and their ideas. She further discussed that the foundation of an entire nation, its economy and consequently its future depends on how well the youth is educated. In terms of educational infrastructure, India has been witnessing a massive growth, but it is not enough. The constitution of India guarantees compulsory and free education to every child till the age of 14. But, it is hardly a reality owing to practical hurdles like economic inequality and rising population.

The youth of India needs to be multifaceted with education remaining at the core of everything. Education empowers you with the ability to think, to tell the right from the wrong and good from the bad. In a country like India where "traditions and customs" is sometimes bigger than humanity itself education is not an option, it is a necessity.

**Day III (18-07-2018)**  
**(Morning Session)**

**Resource Person: Sh. Neeraj Rana**

**Topic: *Drug Addiction- A threat to Youth.***

Sh. Neeraj Rana a most dynamic police officer deliberated on Drug Addiction and shared that we have been experiencing an alarming increase of drug abuse among the youngsters in recent years. Every now and then we read in the newspapers that teens are being held for consuming drugs and most of them are usually aged between 13-18. But the main question arises that why the Indian society is experiencing such a dilemma where more of the teenagers and youths are involved in unethical and unproductive activities like substance or drug abuse.

He was more concerned about the youths and many college-going boys and girls were hauled up by the police involved in the case of drug consumption in a rave party. The alarming rate of drug abuse has always been a problem and especially the increase of drug abuse among youngsters has had detrimental effects on the society. He made the students aware about the soft and hard drugs and was found more concerned about the alarming situation and involvement of society. Officer also shared the fast increasing death rate of the innocent youth due to their involvement in drug distribution and consumption.

**Day III (18-07-2018)**  
**(Evening Session)**

**Resource Person: Prof. Shashi Kumar**

**Topic: *Present Scenario of Education in India.***

Prof. Shashi Kumar in his presentation on the topic Present Scenario of Education in India stressed on various problems and prospects in the present scenario of education in India. He showed his main concern about the low level of education among the poor and the downtrodden, makes the vulnerable to economic and political exploitation. Though adequate provisions had been made in the constitution, to ensure their empowerment and participation. This problem can only be addressed by enlightening masses, by imparting proper education. Thus enabling them to distinguish between good and bad.

He was of the opinion the education of the masses would awaken their minds to the wonders and mysteries of universe. This would free them from doubts, superstition and remove many social evils that plaguing the society. It would train their intellect to reason logically and not to be carried away by false or illogical promises of politicians or power brokers. In short it would make them civilized, cultured and humane citizens of a proud country. He also focused to make the education system more student centric than teacher centric.

The presentation was full of information and inspirations towards improvement in education scenario of the country.

**Day IV (19-07-2018)**  
**(Morning Session)**

**Resource Person: Prof. Sanjeev Sharma**

**Topic: *Swachhta Abhiyan-A Gateway to Healthy India.***

Prof. Sanjeev Sharma in his thought provoking presentation on Swachhta Abhiyan- A Gateway to Healthy India focused to create a chain of people who can work together and inspire others to clean their surroundings, presents a creative and collaborative platform where participants will upload of their efforts to clean a particular location.

The Swachh Bharat community will keep on adding up the number of young volunteers who will execute the mission successfully in their respective locations. The aim of all these activities is to connect as many people as possible with the mission to create a mass movement for fulfilling Gandhi ji's clean India dream by 2019. He linked this movement with healthy India which will ultimately lead to healthy economy of the country.

He further said that it is not just about cleaning surroundings but also seeking the participation of people in planting tree, creating trash-free environment, providing sanitation facilities and paving a way for Swachh Bharat eventually. A Clean India is of utmost importance for promoting the nation as an ideal destination for tourists from across the world. Images of unclean India often become a matter of embarrassment for Indians therefore this is the right time and opportunity to participate towards Swachh Bharat. This campaign will not only help citizens adopt good habits of cleanliness but also boost our image as a nation, sincerely working towards cleanliness.

**Day IV (19-07-2018)**  
**(Evening Session)**

**Resource Person: Prof. Sonika**

**Topic: *Role of Economy in Employment Generation.***

Prof. Sonika from Department of Economics shared her views on the topic Role of Economy in Employment Generation and presented that the unemployment in developing countries like India is of quite different nature. The main cause of unemployment and underemployment prevailing in the developing countries such as India is deficiency of the stock of physical capital with which to employ the growing labour force. Due to the lack of physical capital, it has not been possible to absorb the growing labour force in productive employment.

She further said that apart from the relative low rate of capital formation as compared to the growth in labour force, the use of capital-intensive techniques in the industries mostly imported from the Western developed countries is another important factor causing unemployment in developing countries like India.

She added that in agriculture, despite the existence of surplus labour reckless mechanization of various agricultural operations has reduced the employment opportunities in agriculture. Another important reason of rural unemployment prevailing in the developing countries like India is extremely unequal distribution of land so that many agricultural households have no adequate access to land for production and self-employment in agriculture. She also focused on the change in mind set of people from wage employment to self-employment.

## **VOTE OF THANKS**

We thank the speakers of the induction cum orientation program organized from 16<sup>th</sup> – 19<sup>th</sup> July 2018 by career counselling cell of Govt. College Jawali, for sharing their experiences with the students and motivating them for their bright future. We want to thank Principal Dr. N. N. Sharma and Prof. Ashwani Sharma, Coordinator and faculty member for providing us such a wonderful platform full of exposer. With Gratitude,

All the students of Govt College Jawali first batch 2018-21.
